DETAILED ACTION

Response to Amendment

1. Applicant's response filed July 19th has been entered and made of record.
2. Applicant has not amended any claims. Claims 4, 5 and 16 have been cancelled. Claims 1-3, 6-15 and 17-22 are now pending.
3. Applicant's remarks in view of the last presented rejection have been fully considered and found to be persuasive. Applicant has explained the distinguishing elements of the presently recited claims and the prior art references presented, namely the primary reference to Katt et al. The distinguishing features presented in applicant's remarks are further summarized and explained below in the reasons for allowance.

Allowable Subject Matter

Claims 1-3, 6-15 and 17-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's extensive remarks can be found on pages 16-24 in the last response.

The arguments are found persuasive and will be briefly summarized here.

With regard to Claims 1 and 15 and corresponding dependent claims, the reference of Katt discloses a carrier tape with a seal material on top, which is illuminated for inspection purposes. However Katt does not disclose that the light is reflected off the carrier as recited in the claims and does not disclose wavelengths of

Art Unit: 2624

light passing through the packaging materials as the light does not pass through the carrier tape. In view of applicant's remarks the claims as recited are distinguished from the prior art of Katt.

With regard to claims 10, 20 and 22 and corresponding dependent claims, Applicant's remarks make the same distinctions with regard to the primary Katt reference. Applicant also makes arguments with regard to the secondary references of King and Mullins. In view of applicant's remarks the claims as recited are distinguished from the prior art of Katt and King and Mullins.

With regard to claims 12 and 21 and corresponding dependent claims, Applicant's remarks make the same distinctions with regard to the primary Katt reference. Applicant also makes arguments with regard to the secondary reference of King with regard to the fluorescing excitation light source. In view of applicant's remarks the claims as recited are distinguished from the prior art of Katt and King.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Contact Information

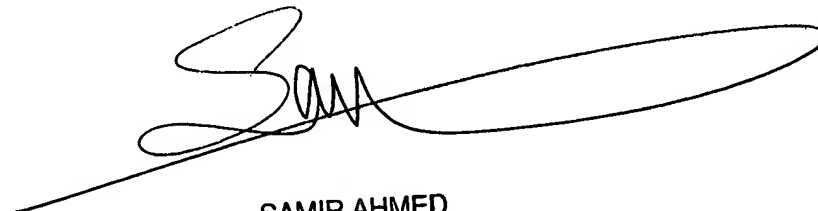

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wes Tucker whose telephone number is 571-272-7427. The examiner can normally be reached on 9AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bhavesh Mehta can be reached on 571-272-2214. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
